

THE CLOSET WORKS

D I F F E R E N C E

the
**CLOSET
WORKS** *inc.*

Learn about what makes The Closet Works Inc. stand out from competitors by providing the best value, products and customer experience in the industry.

Our Employees are Experienced

- Designers are able to give a high level of attention and service to every customer and every job, no matter the scope. The focus is servicing customers, not making a sale as quickly as possible.
- Designers who are experienced in the industry and interior design and stay on top of industry trends.
- Designers' average tenure with our company is over 10 years. More than a quarter of the team has over 17 years experience, each.
- No high-pressure sales tactics. Consultations consist of measurements, needs discovery and conversation. Plans are drafted and sent to you within 2 business days of your meeting.
- Our Installers are full-time employees, rigorously trained, who know the products and materials they install inside and out and who are committed to customer satisfaction.

Pricing

- We are privately owned - not a franchise. We are not burdened by corporate fees and advertising costs. This allows us to control our product line, keep cost low, offers current and be very flexible with Design.
- An unmatched array of offerings of finishes and accessories as well as our superior relationship with the rest of vendors give us access to the newest trends and best pricing.
- We offer a low-price guarantee on all projects with an apples-to-apples comparison.
- We do not play games with pricing such as "if you buy today we will give you...". Everyone gets a fair and honest price that is consistent with clearly stated promotional pricing - no exceptions. Our advanced design software prices each project according to the particulars and specifications necessary.

Quality and Satisfaction

- Most products have thicker edgebanding, at no additional cost, than that which is commonly used in the industry. Thicker material is more durable and protects your investment.
- The quality of our work sells itself. Over 800 customer surveys completed with Guild Quality with ratings between 93%-100% satisfaction over 12 specific categories and with 4.9/5 star rating and over 97% of customers stating they would recommend us.
- A project is not complete until you are 100% satisfied following installation. Our warranty is comprehensive and applies to every part we manufacture. Completing covered repairs is quick and cost-free – no matter how long it's been since installation.
- Designing, manufacturing and installing custom closets and furniture is our **ONLY** business and has been for over 30 years. We do not offer DIY solutions and nothing is “out of the box”.

More Good Reasons

Walk-In Closet Design Ideas And Inspiration Corner

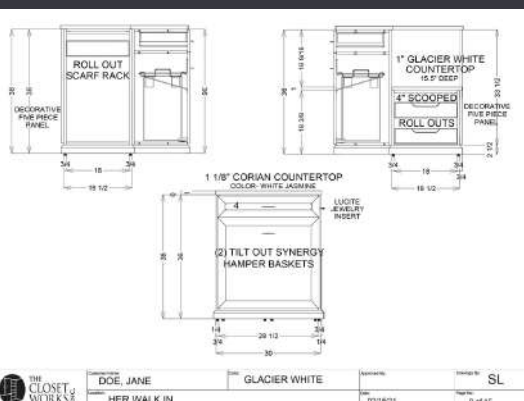

Organize all the items in your wardrobe with elegant closet. Corner shelving and glass door doors allow you to display your favorite items including silk blouses. Corner shelving adds an elegant look and makes your space more open. A light vanity becomes the perfect place to put on makeup without the need for additional furniture. Not sure where to start? View more closet design ideas and get inspired!

Open Walk-In Closet

This contemporary walk-in closet design has an open concept with plenty of room to get ready for the day in various areas. A vanity for styling and putting on makeup, a separate counter for folding and organizing jewelry, and shoe cabinets with colorful shoe shelves and cubbies beautifully fit on each part of shoes can be displayed and accessed easily. There is also ample storage with multiple hanging sections.

TALK WITH US

- Design plans are generated using CAD drafting software and sent via PDF. They include multiple views showing dimensions and notations for each individual project.
- We have a comprehensive website to view examples of hundreds of projects of all types. Superior functionality makes selection of products easy, on your timeframe and with support only if you want it. All options and finishes are available to view.
- Most installations are completed in only one day, even with projects of substantial scope. When your installation day is set, we are committed to keeping it.
