BEDROOM OPTIONS & IDEAS

A reach-in closet system, no matter the shape or size, should be functional with the right design elements so that it can accommodate your needs as they change over time. Adjust shelf or hang rod height in sections to meet your current storage needs. Whether it's a reach-in for him, her, a child's room or a guest room, a reach-in closet is a classic staple, with options like the ones we've provided for you below.

SHOE STORAGE

- Utilize storage space at the base of a shelving system
- Store on open shelves
- Cubbies are great for everyday shoes like sneakers

MAXIMIZE VERTICAL SPACE

- Optimize the vertical storage space even in back corners
- Store off-season clothing or items you use less often
- Create hanging sections designed for your specific needs

UTILIZE ACCESSORIES

- Slide-out baskets and bins help keep you organized
- Valet bars provide hanging space for dry-cleaning or for planning your outfit for the next day
- Our closet rods come in a variety of finishes: Matte Gold, Slate, Satin Brass, Oil-Rubbed Bronze, Satin Nickel and Polished Chrome
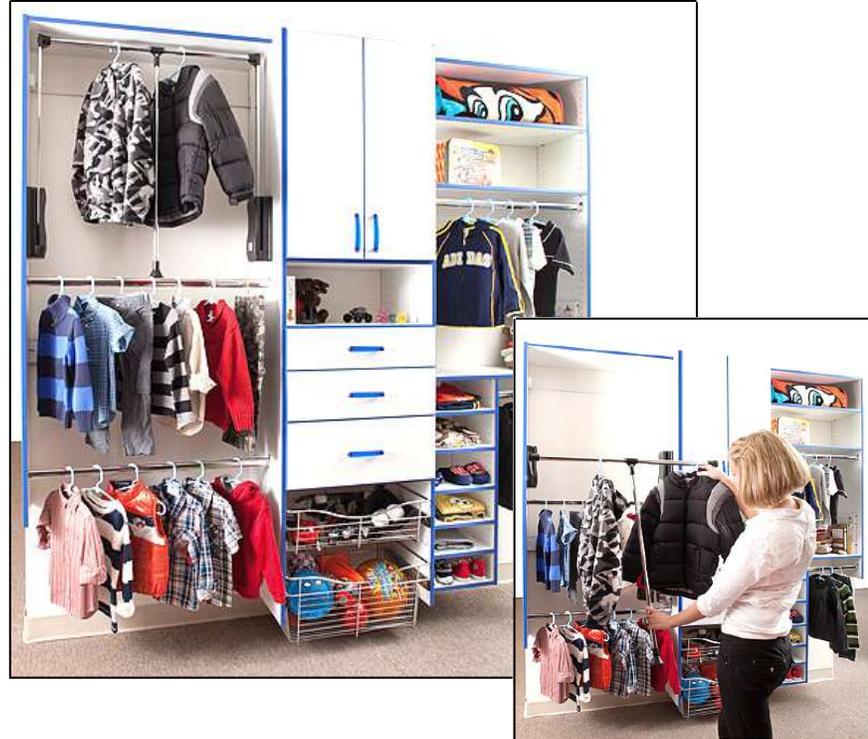

FOR KIDS

Storage for children's rooms, because of the variety and size of items they need to store and because they are constantly growing, requires adjustable and flexible storage. Having a place for everything teaches them good organization skills and allows them to be happier and less stressed by eliminating the time spent looking for toys and clothing.

CREATE AND ORGANIZE

- Triple hanging optimizes the vertical space and can be adjusted to double hang as they grow and clothing gets bigger
- Keep frequently used items, like shoes, on lower shelves
- Keep toy clutter under control in slide-out baskets where they can easily be put away
- Pull-down rods help keep everything within reach and allow for more effective vertical storage

LINEN CLOSETS

Linen closets provide a place to store additional towels, linens, pillows, blankets, toiletries and more. With the proper customized solution, your guests will be impressed with how organized and tidy your reach-in closet space is!

ORGANIZATION IDEAS

A linen closet can be customized for any space, no matter how big or small. Don't just throw sheet sets and quilts back onto a shelf. When you find an organization method that works for you, you can create and maintain a functional closet.

TOWELS AND SHEETS

- Sort out ones you do not use and donate or trash others
- Utilize shelves and wire baskets
- Store sheet sets in a pillowcase to keep everything together

CHOOSE A FOLDING METHOD

- To keep everything from falling over and looking neat, be consistent and fold everything the same way
- Learn how to fold a fitted sheet

MAXIMIZE COMPONENTS

- Cubbies and slide-out baskets are great for storing washcloths, small towels and other small items
- Use a clothes pants rack to store tablecloths

ADDITIONAL OPTIONS

SLIDING DOORS

Keep items concealed or visible and add some style to your bedroom closet with chic sliding doors. Glass inserts come in a variety of decorative options including frosted, patterned and opaque or translucent. Melamine inserts to match the interior of the closet are also available.

PULL-DOWN RODS

- Maximize the vertical space without reaching
- Keep everything easily accessible for children or those with restricted reach
- Hanging bar heights below can be adjusted as necessary for items being stored

CUSTOMER TESTIMONIAL

"I have nothing but good things to see about my dealings with Closet Works. Shelly, my salesperson was professional and experienced which resulted in an excellent design for my closets. The installers were also professional in addition to being very efficient. I am very pleased with the finished work product and would highly recommend Closet Works for closet design and installation."   **- Maureen R.**
