

CNC Machine Technician

Job Type: Full-time

Location: Montgomeryville, PA

Positions available: 1

Our company has an exemplary reputation built on our record of providing excellent products, competitive pricing and outstanding customer service for the past 30+ years. We are employee-centric where people build careers because this is a great place to work!

We are seeking a mechanic who has extensive experience with panel processing machinery including CNC panel and beam saws, drills and edgebanders to assist with our equipment—whether installing, troubleshooting, educating, or providing maintenance.

What You'll Do:

- Develop and document maintenance procedures and schedule.
- Perform preventative maintenance and machine repair tasks in a timely manner to minimize impact on productivity.
- Perform installation and start-up services as needed.
- Recommend improvements pertaining to the operation and reliability of machinery.
- Assist in training machine operators for daily startup, shutdown, adjustments/calibrations and maintenance tasks.
- Proactively learn the latest installation/maintenance procedures and techniques.

We Offer:

- Extremely competitive salary
- A supportive, professional and pleasant work environment
- An attractive paid vacation, sick and personal time package
- A 401k plan with company contribution

Send resumes to David Cutler, dcutler@closetworksinc.com.
